Polish Optical Cable Terminal Box Parameters

Overview

It consists of 2 optical cable inlet and 24 outlet PORTS, some Splice trays, a tissue system with optical fiber splicing tray and 24 x bayonet type enhanced pre-connectorized waterproof SCAPC adapters, which can be accessed and connected from the outside of the box. NORDEN Fibre optic DIN rail mounted terminal box is available for the distribution and terminal connection for various kinds of optical fibre system, especially suitable for mini-network terminal distribution, in which the optical cables, patch cords or pigtails are connected. It can help splicing, splitting, storage and management with suitable space. Lockable Cable inputs: 2x 12mm - 16x Space for 1x16 SC splitter or 1x32 LC splitter 1. Cable fixing Instert the stripped cable through the cable entry port and fasten the FRP element(s) to the block.
