

# 144-core optical distribution box self-operated

## Overview

The SJ-ODB-M18-B metal fiber optic termination box is a durable, compact solution for managing and distributing up to 144 fiber optic cores, ideal for outdoor use in large-scale network installations. Fiber optic cross connect cabinet is an outdoor optical equipment that is especially designed for outdoor optical nodes in access network. Adopting an integrated pull-out module with fusion, the Fiber Management Tray also called ODF Distribution Box, Integrated Splicing and Distribution ODF. It is mainly used for cable inlet, grounding and fixing and the splicing between the terminal end and pigtail. PHXFIBER provides fiber optic joint enclosures of high quality. The fiber optic joint enclosure box price is reasonable. Description: Cross Connection Distribution Cabinet is designed for a cross connection between telecom feeder cable and customer cable. Description: Cross Connection Distribution Cabinet is designed for a cross connection between telecom feeder cable and customer cable.
