

2G Remote Station Optical Module SFP

Overview

Customized 2G Fibre Channel SFP Transceiver Module supports up to 300m link lengths over multimode fiber (MMF) using a wavelength of 850nm via an LC connector. Take a look at our test program to get the reliable and high-performance optical transceivers. ISO/IEC 27001 is an international standard for managing and processing information security. This standard is jointly developed by the International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC). It sets out requirements for establishing. Cisco offers a comprehensive range of pluggable optical modules for the Cisco ONS family of multiservice platforms. SFP 1000BASE-T Gigabit Ethernet module (uses Cat 5 cable). They can achieve a maximum transmission distance of 20km to 80km using a single-mode fiber. GIGALIGHT's 2G BiDi SFP series optical.
