

2U Cabinet Configuration Solution for Broadcast Transmission Data Center

Overview

A 2U optoelectronic converged platform, 400G high-speed transmission DCI solution. This 8-slot 2U chassis measures 19 inches in width, featuring optical-electrical integration and a maximum load capacity of 1000W. FlexFusion™ Cabinets XG offer a unique universal platform for all types of data centers and servicing needs including Hyperscale, Edge and Multi-Tenant Data Center. / 2,500lbs rolling load, doors with maximum air flow of 80%, FlexFusion can tackle. Configure-to-Order cabinets are a highly engineered data center cabinet solution that delivers fast, built-to-order configurability, best-in-class strength, and scalability regardless of the application. Configure-to-Order is a turnkey solution with ready-to ship cabinet components that integrate. Belden offers a complete line of open frame racks and cabinets that support all applications, from single-rack or cabinet applications (such as retail and telecom closets) to high-density, multi-rack/multi-cabinet patching and switching fields (in computer rooms, data centers and central offices). It supports 1+1 redundant DC power supplies and allows for main control backup. Available in 1U to 5U rack densities, with support for single and multi-socket configurations for x86 processors from AMD and Intel, as well as ARM processors from Ampere, extensive DDR5 memory, and hot-swappable storage drives. 1U, 2U, 3U, 4U, 5U rack servers supporting AMD, Intel x86, and ARM. design your Data Center Ready Solution.
