

32-core Telecom Fiber Distribution Box

Overview

FDB-32 Series 32 ports Fiber Distribution Box, also called Splitter Distribution Box or Fiber Terminal Box, can be used in FTTH projects and is suitable for corridor, basement, room, and building's outer walls application. With the function of the mechanical splice, fusion splice, light splitting. Grandway's Fiber Splitter Box provides a high density wall mounted or pole mounted solution for next generation networks, which aims to provide and manage fiber splitters in a limited space. It is designed for FTTH (Fiber to the Home) or FTTB (Fiber to the Building) with protective housing for all. The Telhwa CTO32 32-port multi-operator fiber optic distribution box offers high-density, reliable fiber management for B2B networks. Features tool-less installation, IP65 protection, and compliance with IEC, TIA/EIA & RoHS standards. It provides a standardized environment for fiber splicing, winding, and port output. Built for durability and versatility, this distribution box supports up to 48FO splicing and accommodates 32 subscriber connections, making it ideal for.
