

AI upstream server manufacturers

Overview

While semiconductor giants like NVIDIA and AMD develop the hardware that powers AI servers, specialized AI companies like TensorWave, Lambda Labs, and Cerebras Systems are redefining AI and HPC performance with custom-built servers. So, which company leads in AI chip manufacturing?

Artificial Intelligence (AI) server manufacturers have experienced surging demand as data center operators require significantly more computing power than before the advent of ChatGPT and other Generative Artificial Intelligence (Gen AI) tools. Enterprises are investing billions of dollars in cloud. These massive computing needs have given rise to a new breed of technology providers: AI server companies. Every AI breakthrough, from self-driving cars to LLMs, depends on ultra-fast servers crunching numbers behind the scenes. 3 Billion by 2035, at a CAGR of 40.06% during the forecast period 2025–2035. (US), Hewlett Packard Enterprise Development LP (US), Lenovo (Hong Kong), Huawei Technologies Co. These companies offer AI servers with powerful GPUs, TPUs, and specialized hardware to accelerate machine learning, deep learning, and data processing tasks.
