

Access Controllers and Switches

Overview

Why do you need an access control system?

Increasing demand for security Growing need to restrict access to buildings and areas Mechanical access systems are prone to misuse Access in a company Protect secure areas Unlock doors in case of an emergency Bosch Access Control Systems Access Control is a key pillar of today's security. The growing need to control access to and within buildings and areas, more flexible working time models and the limitations of mechanical locks make a modern and reliable access control system indispensable. Bosch offers complete, reliable and scalable access control solutions for any medium to large. Investing in the right technology is central to the protection of your employees, site visitors and ultimately the success of your company. While you naturally want your business premises to be as open and welcoming as possible you need to ensure maximum protection against unauthorized intruders. Bosch Access Control solutions offer you a perfectly flexible system for any project. Our portfolio includes all access control components from different software options and controllers to a wide range of readers and credentials to comply with your individual needs. State of the art security features and encryption functionalities make sure your d.
