

Asia Obstruction of Optical Cable Project

Overview

SINGAPORE – Asia Piling, a company involved in many public and commercial projects here, is the sub-contractor that hit critical underground fibre-optic cables, causing a 20-hour broadband outage to more than 5,000 households on April 18. In naming the sub-contractor, the Land Transport Authority. The Asia Program in Washington studies disruptive security, governance, and technological risks that threaten peace, growth, and opportunity in the Asia-Pacific region, including a focus on China, Japan, and the Korean peninsula. In 1859, the Dutch colonial administration attempted to link its East. Tokyo, Japan, 18 July, 2025 – The SJC2 consortium (*1) announced today with NEC Corporation (NEC; TSE: 6701) the completion of construction and the start of operations for the Southeast Asia-Japan Cable 2 (SJC2), a high-capacity optical submarine cable connecting the Asia region. It was established by a pan-Asian consortium including Singtel, China Telecom Global, CTC, Global Telecom, DITO and Unified National Networks. The ALC project has an expected cost of. Multimillion-dollar undersea/subsea fiber optic cable projects have become the latest focal point of geopolitical tensions in Asia as China intensifies its highly contested claims over the South China Sea, writes Nikkei Asia's Singapore correspondent Tsubasa Suruga. These cables are crucial for.
