

Brazilian Industrial Switches DML

Overview

The DML3006LFDS and DML3009LDC are high current single channel load switches, capable of driving up to 11A and 15A load respectively. They meet the demands of notebook, tablet computers, set-top boxes, servers, gateways, telecom, networking, medical and industrial equipment. Switches are fundamental components in electrical systems, and the market witnesses continuous innovation in terms of design, functionality, and energy. We are leader and pioneer in the Brazilian market of electrical components for industrial automation. Our product lines include: micro switches, position switches (limit switches), safety devices, foot switches, control and signaling switches, sockets and plugs, and magnetic sensors. Market dynamics in Brazil reflect the nation's ongoing industrial modernization. Brazil is one of the largest markets for advanced manufacturing technologies in Latin America. Driven by a compound annual growth rate of 20%, the market size is expected to reach US\$9 billion by 2030. The DML3006LFDS and. Brazil's factory automation and industrial control market is poised for substantial expansion, propelled by widespread automation adoption and government initiatives supporting industrial modernization. The market, currently valued at \$310. 46 billion as of 2025, is projected to grow at a Compound.
