

British Cable Tray Laying Standards

Overview

The document outlines the British Standard BS EN 61537:2007 concerning cable management for cable tray and ladder systems, providing guidelines for their design, dimensions, and testing. Cable ladder systems and cable tray systems shall be manufactured in accordance with BS EN 61537, channel support. Although BS 7671 touches on the subject of cable supports, it does not detail specifically what these support distances should be. 8 (Other Mechanical Stresses (AJ)) in that document provides requirements for cable support. Our focus has always been on solutions from the field of cable support systems. Establishing partnerships. cable trays are equivalent. The mechanical and electrical characteristics, tests, certifications, overall quality management, recommendations mentioned in this technical guide only apply to our own cable management ranges and cannot under any circumstances be transposed to si osure, overheating or. voestalpine Metsec Cable Tray Systems generally conform to BS EN 61537 Cable management - cable tray systems and cable ladder systems. Information relating to compliance is detailed/highlighted within the following sections of the standard: 6.
