

Bulgarian Independent Switch 800G

Overview

N9500-640C is a low latency 800G RoCE 2U switch with 64x800G OSFP ports, SONiC OS, and Broadcom Tomahawk 5 (BCM78900), delivering 51.2Tbps performance for AI data centers. 7050X Series The 7050X Series combine scalable L2 and L3 features with comprehensive network monitoring, automation, virtualization and visibility features for Enterprise and virtualized Data Center networks. For the most demanding environments, the 800G routing and switching platforms provide. As data centers continue to evolve, the demand for higher bandwidth and faster network speeds will drive further advancements in the electronic components used in 400G/800G network switches. Electronic components used here are essential for maintaining signal integrity, ensuring efficient data. Eight 1G Ethernet ports and two SFP+ ports for 10G fiber connectivity. Portable, powerful and extremely cost-effective – this switch is an instant classic! Your compact, affordable PoE powerhouse with 8x Gigabit PoE-out ports and 2x 10 Gigabit SFP+ ports. Each of its network ports can be connected to a host or a network node to achieve data interconnection between all devices.
