

Cable winch in cable tray

Overview

A portable capstan winch intended for pulling cable on a ladder. The winch is powered by an electric motor and is available in both. Thorne & Derrick International distribute the most extensive range of Cable Pulling & Cable Laying Equipment to enable the installation of low, medium and high voltage power cables into underground trench or duct – products also supplied for fibre optic blowing, subsea trenching, offshore umbilical. Modern cable laying machines support you with an economical, safe and easy cable installation. With the right combination of mobile and portable cable pulling machines even long distances and heavy cable pulls can be successfully completed. Maximum mobility is one of today's highest requirements. Trailer and Winch Solutions Ltd are a manufacturer and supplier of cable laying equipment and cable pulling accessories. TWS offer equipment and services direct to contractors, DNO's, the hire industry and electrical wholesalers alike and have further partnered with an independent business for that. An electric cable winch from transprotec: compact, robust, flexible and durable.
