

Canada Fiber Optic Enterprise Router 200G

Overview

The 4G LTE Wi-Fi Wireless Router offers 4 LAN ports, VLAN support, load balancing, line backup, data distribution, port mapping, and dynamic domain names. This enterprise Wi-Fi features a 1.4 GHz 4-core CPU, 29W max power consumption, and 41. Ideal for. Arista's 200G/port systems allow datacenters and high-performance computing environments to meet growing bandwidth needs at lower cost and power per gigabit. Key benefits include:

- Increase in bandwidth density by a factor of 2 when compared to 100G/port systems.
- Easy connectivity to compute. The Cisco® family of QSFP modules provide solutions for AI/ML data center applications, Network Interface Cards (NICs) on servers, and for data center switches, while leveraging the breakout capabilities and backward compatibility to lower-speed QSFP pluggable modules and cables. Get deeper visibility into your network and see applications, users, and devices before they become threats. The QSFP56/QSFP-DD-200G modules are our latest generation of 200G transceiver modules. This product is certified by Amazon to work with Alexa. This product can be controlled with your voice through Alexa-enabled devices such as Amazon Echo and Amazon Tap. Carbon emissions from the lifecycle of this product were reduced compared to similar products or previous. If Canada is going to thrive, compete, and build back better, the people and businesses in rural communities need fast, reliable fiber internet networks. Modernize Oil and Agriculture to Boost the Economy Provide Equal Access to Healthcare, Education, and Employment Ensure a Strong Rural Future for.
