

Canadian cable tray bend

Overview

Tray bends are the elbows of cable tray which change the direction of the tray routing. Cable Tray Flat Bends of 45° & 90° bends are available for light, medium and heavy duty cable tray systems. Our knowledgeable production team works closely with each customer to provide quality solutions based on your schedule and budget. We want each and every experience with our. Made or assembled in Canada. T&B channel tray systems are fabricated from a corrosion-resistant metal (low-carbon steel, stainless steel or an aluminum alloy) or from a metal with a corrosion-resistant finish (zinc or epoxy). The choice of material for any particular installation depends on the installation environment. I have read & accept the privacy policy and consent for Unitrunk to contact me.
