Overview

We've talked about why cable management is important. But how do you get started?

The first step is to have a plan. Before you even begin, look at where the cables enter and leave your equipment. For example, does power come from the floor. We've talked about why cable management is important. But how do you get started?

The first step is to have a plan. Before you even begin, look at where the cables enter and leave your equipment. For example, does power come from the floor or the ceiling?

Now, plan separate routes for your data and power cables. If you have both fiber and copper da. So, other than making your server rack look nice, why is good cable management so important?

There are actually a number of reasons. Some are more hardware-related, while others are related to human factors. Here's a quick rundown of why it's smart to keep your cables well-organized. To begin with, let's look at basic performance. Most people are v. StarTech.com is known for a variety of computer accessories.
