

Cost of blowing and laying optical cables

Overview

Buyers typically pay for fiber laying by combining material costs, labor time, and permitting plus trenching or aerial support fees. With 19+ years of experience installing fiber-optic cables at over 20,000 locations, we've seen how prices vary based on cable type, project scope, and installation complexity. This guide provides clear cost estimates, price ranges. I'm looking for some info on pricing, not sub pricing but what's an average the prime contractor is getting on blowing/pulling cable and boring 1 1/4" down to 3/4" and also plowing rates for same size duct, just curious and trying to see how much difference subs get on these vs what the prime is. ing and blowing a cable in a duct and the impact on the cable designs. ulling has been the first technology for installing OF cables in duct.
