

Cuban busbar processing machine price

Overview

Roughly \$4650, this CNC busbar processing machine offers cutting, punching, and bending capabilities. Available in quantities starting from 1 unit, ideal for industrial use. It's best to connect with a factory specializing in cheap or wholesale bulk. Whether you need high-precision busbar cutting, punching, or bending functions, or complex pre-assembled mechanisms, our engineers will put your application needs at the core and tailor the best solution for you. We apply mature technology and processes to address various challenges you encounter. A busbar machine is an essential industrial apparatus used in electrical engineering and power distribution systems to process busbars —thick strips or bars made of highly conductive metals such as copper, aluminum, or brass. LIJIAN MODEL NC 40ZB 1200 CNC Busbar Bender, Servo Powered by Rexroth, 40 Tons, 10HP.
