

Customized Italian High Voltage Complete Equipment

Overview

Our business is focused on every kind of High Voltage component — including Power Transformers, GIS, Switchgear and High Voltage Testing Equipment — covering specifications, design review, testing, diagnostics and fault analysis. HI-PE specializes in industrial solutions, including furnace and boiler design and construction, power distribution and transmission components and switches, and mechanical machining of non-ferrous materials. The company serves the petrochemical, energy, and general industry sectors, providing. We started in 2008 when Dr. Fracchia founded the company in Italy after 30 years working in the High Voltage field. Our business is structured around two production. We. We design, build, renew and maintain complete power supply systems for railways and urban transports, whether tramways, trolleybuses or metros. Weatherproof: IP65-rated enclosures (-40°C to $+70^{\circ}\text{C}$ operation). Flexible terminations: 6~24 cable entries for 1kV/10kV systems. Plug-and-play deployment: Pre-assembled units (2. 2m, etc) reduce on-site. Thanks to the experience of Demont and the expertise acquired from the renowned Nuova Magrini Galileo (NMG) factory in Battaglia Terme, HI-PE provides high-quality production of components for high-voltage transmission and distribution systems, including both AIS and GIS switchgear.
