

Distribution Box Fixing Clips

Overview

The perfect solution for fitting electrical boxes, conduit, cable and pipes within stud walls. Supplied in connected pairs, simply snap the brackets apart. The brackets can be extended to fit between studs that are 16 to 24 inches apart. The clip simply pushes on and stays on, job done!

- 3 Simple Steps- 1 Remove the damaged thread, 2 Push the back box repair clip into.

ABB's Control Room offering includes a comprehensive range of solutions designed to optimize the operator workspace for critical 24/7 processes across various industries. The control room is considered one of the most critical areas in any facility, impacting daily decision-making and overall. External pulling force on wires is prone to causing terminal loosening and wiring detachment, which is a common cause of junction box faults.
