

Distribution box bridge terminal

Overview

This bridge-type terminal block is designed for secure and efficient grounding and neutral wire connections in power distribution systems. Featuring a pure copper conductive block in a 6×9 format, it is available in 4, 5, 6, and 8-hole configurations. Whether in a junction box or distribution box, WAGO's installation terminal blocks and connectors offer you the right product for every installation job. This includes the following groups: With its compact Power Distribution Blocks, FTG offers a comprehensive assortment with a huge variety of solutions, regardless of whether sector-shaped conductors. Accessories for DIN rail components are required for proper installation in distribution boxes. Screw connection with nut, contents: 2 pcs.
