

Do you need a license to dismantle telecommunications towers

Overview

Before initiating decommissioning, telecom operators must obtain necessary permits from relevant regulatory authorities to ensure compliance with national and local regulations. These permits often require detailed project proposals, environmental impact assessments, and safety. Telecoms masts are increasingly becoming a barrier to redevelopment or urgent building works – and the legal framework for removing them is tightening, according to an expert at national law firm Clarke Willmott. Henry Russell, an associate in the property litigation team at Clarke Willmott in. Sometimes, due to technology upgrades, urban expansion, lease issues, or cost inefficiencies, telecom operators must decommission — or shut down — certain tower sites. Sounds easy, right?

Just switch off and walk away?

Not quite. It's. Decommissioning means removing telecommunications equipment from a landlord's property. Outdated or redundant systems not only tie up resources but can also pose operational and compliance risks.
