

Energy-saving KJQG cable tray

Overview

The Corrugated Base Energy-Saving Cable Tray enhances strength using structural reinforcement principles, allowing reduced plate thickness without compromising load capacity. This saves material, lowers cost, and supports energy conservation and emission reduction. Molded Reinforced Base Design Minimum Sheet Thickness of In-Stock Cable Trays Anti-Corrosion Performance Requirements Corrosion Resistance Specifications For Lightweight Energy-Saving Cable Trays Salt Spray Test Requirements The Corrugated Base Energy-Saving Cable Tray enhances strength using. We offer a wide range of cable tray systems to support tubing, electrical cables and instrumentation. Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and fibreglass (FRP/GRP) composites to suit any project type both offshore and onshore. We also. ABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Canada and Saudi Arabia.
