

Fiber optic handheld light source with 1m blind zone consultation

Overview

FOLS-103 handheld adjustable light source is newly designed fiber optic tester, which aims at fiber network installation, fiber network engineering acceptance and fiber network maintenance. VIAVI offers the most comprehensive light source and power meter kits for fiber optic networks. VIAVI light sources offer versatility in measuring fiber optic light continuity, loss and quality in field. Part of EXFO's 600 handheld series, the FLS-600 Light Source is designed for first-class versatility—it offers laser and LED models, as well as various wavelength options. EXFO develops smarter test, monitoring and analytics solutions for. Discover EXFO's broad range of optical light sources that cater to various testing requirements: singlemode or multimode, polarized or non-polarized, broadband or narrowband, tunable, ITU-wavelength-centered and much more. This rugged and reliable optical fiber tester provides a highly stable laser output for both single mode and multimode applications. Featuring multiple wavelengths and interchangeable adapters, it's the essential.
