

Fireproof and energy-saving cable trays

Overview

Energy saving cable trays incorporate design features that reduce energy consumption in cable management systems. Find verified suppliers offering best prices. Effective protection of cable systems around the world: our tried-and-tested FLAMMOTECT-A and DG-CR 0. 7 products are successfully used to protect cables in high-rise buildings, industrial buildings, and offshore facilities as well as in sensitive areas, such as hospitals, airports, production. Basor Electric, sensitive to the need to minimize the consequences of a fire, has subjected its cable trays to rigorous fire resistance tests to ensure the behavior of its products. In the event of a fire, it is necessary to maintain the functionality of certain electrical installations, such as. Fire safety and fire resistance are vital part of responsible electrical designing and installation. Meka Pro has tested and continues to test its products and cable management systems' fire resistance with the cables installed and connected according to the temperature curve in the EN 1363-1. FireResistant Solutions provides cable tray covering and fire-protection systems designed to safeguard electrical and data infrastructure in commercial and multifamily buildings. Do you need help with your purchase?

The HERMI team will be happy to advise you and help you find the most suitable solution for your situation. Cablofil fire resistant and fire proof cable.
