

GP147 type optical cable terminal box

Overview

The fiber optic terminal box is designed for FTTx applications, accommodating at least 4-16 users. Suitable for both indoor and outdoor use, it supports wall and pole mounting. Pepperl+Fuchs offers a comprehensive range of terminal boxes and junction boxes in types of protection Ex e (increased safety), Ex ia (intrinsic safety), Ex tb (dust protection by enclosure), and Ex op pr (protected optical radiation). They are certified in accordance with international explosion. Splice boxes and splice distributors are essential for a reliable fiber optic cabling system and serve as a connecting point between the fiber optic installation cable and the in-house network. High quality components ensure a secure and stable operation. You can find fiber splice boxes and. In a highly competitive market, HL Global approach is to satisfy all the different types of optical fiber terminal boxes. Whether it's for straight-through terminal box or branched type terminal boxes, indoor or outdoor, our terminal boxes offer a versatile and cost-effective solution for. Optical termination box (OTB), is a compact fiber management box used for FTTH application.
