

Grid Cable Tray Solution

Overview

Grid Cable Trays are metal structures designed to support and organize cables. Made from steel or aluminum, they allow proper airflow and easy access for maintenance. Panduit offers industry-leading Cable Routing Systems as part of comprehensive, integrated Data Center Solutions to effectively manage and protect high-performance communication, computing, and power cables. These trays offer a highly flexible, reliable, and cost-effective solution for cable management, whether in. The C-grid cable tray is a cable support system made of 4. C-grid cable trays are used in the chemical, food and pharmaceutical industries, in agriculture, building services. ABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Canada and Saudi Arabia.
