

High-density server racks IP65 in stock

Overview

Discover IP65 network racks with CE certification, ideal for outdoor telecom and server use. Waterproof, dustproof, and built for reliable networking hardware protection. With specially adapted. Simply put, rack servers are computers installed in racks in data centers. The rack consists of mounting slots or bays. Each bay houses a hardware unit fixed securely in the framework. Contrary to tower servers set in an upright cabinet, the rack-mounted servers are dense configurations that. AZE's 27U IP65 waterproof Outdoor Server Cabinet are designed to protect your sensitive network equipment from harsh environments, with waterproof and dustproof features to safeguard it from the elements, while still keeping the equipment secure outside. This premium Serveredge Cabinet is packed with features designed to simplify rack. Our range of Server Racks have been designed specifically to house all industry standard servers with an overall external depth of 1000mm. Increased airflow allows all equipment inside to remain cool. These Racks include all the features you need and expect like lockable and removable doors and 19".
