

How long does it take to install a 12-core fiber distribution box

Overview

Total time from order to installation: This can range from a few days to 2-4 weeks, depending heavily on the ISP's current workload and your ability to schedule an appointment. In high-demand periods or areas, it might stretch to 4-6 weeks. This comprehensive guide breaks down the typical timeline, from initial sign-up to your first lightning-fast connection, covering factors that influence speed and what to expect in 2025. Comparing Installation Times: Fiber vs. Other Technologies Fiber optic internet represents a significant leap. How long does it take for fiber internet to be installed if you are a new customer?

For new AT&T Fiber customers, installation will require a technician to come to your home. You can expect the visit to take about four to six hours.
