

IDM Micro-module Data

Overview

View MDL-IDM by Texas Instruments datasheet for technical specifications, dimensions and more at DigiKey. Founded in 1993, Shenzhen KSTAR Science and Technology Co. (Stock code: 002518) is a global leader in the smart energy field. Kstar focused on the R&D and manufacturing of UPS, Precision Cooling and MDC (Modular Data Center), Battery, PV, ESS and EV Charger. monitoring system, fire fighting. The dazzling 2.8" (400x240) touch screen delivers incredible color and quickly serves up photos, videos, album artwork and more. Easily navigate your media library with the tap of a finger or via traditional button controls if you prefer. Experience your music wirelessly and stream audio to other. system. As an All-In-One solution, IDM features quick deployment, energy Efficiency, smart management, safety and re design. The continuous power supply with back up battery guarantees stable IT equipment o unction. The compact design is based on a Stellaris® LM3S1958 microcontroller; a highly. The compact Luminary Micro Stellaris® Intelligent Display Module (MDL-IDM) offers a complete graphical touch-screen user interface solution for control, automation, and instrumentation applications. The modules' flexibility and predictability are highly valued by large telecom and Internet companies, as well as large- and medium-scale enterprises.
