

Indonesia Certified Edge Data Center IP65

Overview

Known as EDGE2, the new data center has been under construction since 2022 and is located in Jl. Kuningan Mulia, South Jakarta. Ekagrata Data Gemilang (Edge DC), a subsidiary of PT Indointernet Tbk (Indonet). Jakarta's carrier density is the connectivity gateway to 280 million internet users. Indonesia's first 100% renewable energy data center. Dense ecosystem, scalable up to 300 MW. Colocate with 6 global cloud providers, 80+ telcos, 150+ local, regional and global. EDGE2 becomes the largest data center in the metro with a total IT Load of 23 MW and over 3,400 racks. Our Jakarta data center is designed to offer build-to-suit and multi-tenant purpose-built wholesale capacity, connectivity, and cloud access to this fast-growing, underserved market that serves as a gateway to Southeast Asia for commerce, trade, and technology. 25 PUE, liquid cooling, and 100% dual power circuit availability.
