

Is the SMC fiber optic junction box made of stainless steel

Overview

1 fully enclosed chassis, the box is made of SMC molding material or stainless steel, with moisture-proof, waterproof, dust-proof, salt spray-proof, and corrosion-resistant characteristics. A Sheet Moulding Compound (SMC) junction box is made from a composite material consisting of unsaturated polyester resin, mineral fillers, and short glass fibers. This material is formed using high-pressure moulding technology, producing high-precision parts that can operate within a temperature. IP 65 576FO Street Fiber Optic Joint Box Cabinet Stainless steel SMC Housing 1. For reservation, straight-through, fiber allocation and scheduling for the node of feed cable, distribution cable. Starting with the Copper age in 1992, FIBCONET has gone through nearly 18 years in the fiber optic communication area.
