

# Jointly developing AI server with Paraguay

## Overview

Paraguay and the Republic of China (Taiwan) have announced a landmark cooperation agreement to develop one of the world's largest centres for Artificial Intelligence infrastructure. The announcement followed Peña's May visit to Taiwan and meetings. Breaking: Paraguay is positioning itself as the unexpected tech giant of South America, attracting hundreds of millions in AI infrastructure investments. Here's why global tech companies are racing to this landlocked nation—and what it means for your future in Paraguay. In a stunning development. Taiwan President Lai Ching-te and Paraguayan President Santiago Peña (left center) jointly witnessed Foreign Minister Lin Chia-lung (right) and Paraguayan Foreign Minister Rubén Ramírez Lezcano (left) sign a 'Memorandum of Understanding on Cooperation in the Investment of a Sovereign AI Computing. President Santiago Peña emphasized this Wednesday that the alliance forged with Taiwan during his recent trip to the island, for the construction of one of the world's largest AI centers, positions Paraguay in the global race for the development of this technology, given its status as a leader in.
