

# Limin Bridge in the Philippines

## Overview

620 meters supported by 43 spans, this extreme bridge spans the San Juanico Strait, the narrowest strait in the country. The bridge connects Tacloban City on the Leyte side and the town of Santa Rita on the Samar. With a total length of 2. This list includes notable viaducts or land bridges built over land mass, on coastal areas, riverbanks and on diversion roads. It is located on Mayor Democrito D. Plaza II Avenue (also known as the Butuan Bypass Road). If you own the work and feel. Many branded hotels are near the bridge, they even have free shuttles as soon as you get to the entrance of the bridge. Revenue impacts these recommendations, learn. The Historic Bridges of Romblon (Filipino: Mga Makasaysayang Tulay ng Romblon) are a group of bridges that were built during the Spanish and American colonial era over the Casalogan River in the town of Romblon, Romblon in the Philippines.
