

Madagascar Network Distribution Box Budget

Overview

With a budget of \$24 million, this initiative is designed to promote the adoption of internet and digital services throughout the country. The Distributed Generation Window is a technical assistance program for Sub-Saharan African regulators and utilities to facilitate the integration of Distributed Generation onto electricity networks. However, While only 36 percent of the population has access to electricity in Madagascar, the state-owned utility company JIRAMA is faced with three major issues: (i) insufficient and inefficient production, (ii) losses during the transmission, distribution and commercialization phases, and (iii) tariffs. The Madagascar Public Expenditure and Institutional Review was prepared by a team led by Marc Stocker (Senior Economist, EAWM1); Ibrahim El ghandour (Public Sector Specialist, EAEG2); Faniry Nantenaina Razafimanantsoa Harivelo (Economist, EAEM2); and Antsa Raoelijaona (Economist, EAEM2). In its latest version of 2025 the NRI Report maps the network-based readiness landscape of 127 economies based on. The Malagasy government has unveiled an initiative aimed at distributing digital devices, including smartphones, to the population as part of the Digital Connectivity and Energy for Inclusion in Madagascar (DECIM) Project.
