

Maga optical cable

Overview

These revolutionary OM4, laser optimized fiber optic cables are constructed from the highest quality silica and are 100% factory tested. In this category you will find high-quality fibre optic connection cables for FTTH connections and fibre optic routers. LIFETIME GUARANTEE: For material and workmanship on all patch cables. Copyright © Fiber Optic Cable Shop. These are cables that are designed to meet both the rigorous environment of the outdoors but also can be routed indoors, where flame rating requirements also apply. This type of indoor outdoor cable eliminates the need for a “transition splice” to an indoor-rated cable when routing an outdoor cable. In the fibre optic cable category, you will find pre-assembled fibre optic solutions for reliable, low-loss data transmission in professional environments - from patch panels and technical cabinets to building and campus cabling. MAG GmbH offers a practice-orientated range for indoor and outdoor.
