

Mexico acquires laser diodes

Overview

Florida-based microelectronic company Micross Components, Inc. We are proud to announce the acquisition of Diode Laser Concepts Inc. Wishing. The laser diode market in Mexico is growing due to applications in telecommunications, medical devices, and industrial processes. Semtech, a California-based supplier of high performance analog and mixed-signal semiconductors, was advised by O'Melveny &. In 2024, the trade exchange (includes international purchases and sales) of Lasers (Excl. Laser Diodes) were Jalisco (US\$9. 03M), Ciudad de México (US\$778k), Nuevo León. The Mexico Laser Diode Market is a vital segment of the optoelectronics industry, involving semiconductor devices that emit coherent light when electrically biased in the forward direction.
