

Multimode SC-ST fiber optic patch cord

Overview

SC- a snap-in style connector. Known for its excellent performance. Referred to as Subscriber Connectors, Square Connectors or Standard Connectors. ST- a very popular choice connector for Multimode networks. Also referred to as Straight Tip c. SC- a snap-in style connector. Known for its excellent performance. Referred to as Subscriber Connectors, Square Connectors or Standard Connectors. ST- a very popular choice connector for Multimode networks. Also referred to as Straight Tip connectors, they utilize a bayonet-style coupling type, enabling a simple twist-on and twist-off installation. Cleaning your fiber connector end faces and components regularly is crucial for avoiding a total network failure. Ensure your optical fiber system is working properly and prevent major network issues with fiber cleaning kits, pens, fluids, and wipes. Your patch cable selection is important to the type of fiber optic network you are working on. Some are. Note: The polish type affects the amount of back reflection, also known as reflectance. PC- Physical Contact. Polished to create a slight dome at the end of the ferrule that helps to maximize the signal being transmitted. UPC- Ultra Physical Contact. More extensive polishing than the PC type, a greater dome shape is created that further help to max.
