

National Optical Cable Campaign

Overview

Accra, Oct 01, GNA – The Ghana Chamber of Telecommunications has launched a nationwide campaign to raise public awareness about the importance of preserving Ghana's fibre infrastructure, warning that growing fibre optic cable cuts threaten the national fibre stability. The Chamber urged the government and stakeholders to act immediately to address the deteriorating phenomenon of fibre cuts, which is causing network disruptions and. BharatNet, one of the biggest rural telecom projects in the world, implemented in a phased manner to all Gram Panchayats (approximately 2.5 lakh) in the country for providing non-discriminatory access to broadband connectivity to all the telecom service providers. Objective is to enable access. YOFC is the only company in the world that has independently possessed the manufacturing technology of all three mainstream preforms (PCVD, VAD and OVD), and successfully achieved the industrialization of preform manufacturing technology. In 2021, YOFC won a gold medal from EcoVadis. YOFC has. Government's Efforts to Improve Broadband Connectivity in Rural Areas through National Broadband Mission (NBM) The Government has taken the following key actions to improve broadband connectivity in rural areas and bridge the digital divide by implementing the National Broadband Mission (NBM) in. When carriers are not motivated to upgrade from copper to fiber upgrades, governments need to consider three main factors to guide the way forward, boost economic development, improve living standards, and transform industry. New infrastructure projects are critical not only to digital economic.
