

Nepal ONU Optical Network Unit LPO

Overview

The ONU is mainly designed for FTTH, FTTO application. It supports 1000Base-PX20+ standard with 1:64 maximum optical splitting ratio and 20km distance. The transmitter uses a high-linearity driver chip to directly drive the optical modulator, converting the electrical signal into an optical signal. Signal equalization and compensation. A gigabit passive optical network (G-PON) comprises optical line terminals (OLTs) and optical network units (ONUs), and Murata's lineup of products for use in ONUs is introduced here. A ONE-STOP shop for your Tech needs ! ONU Price in Nepal - ITShop Nepal. We offer low Price and discount for you % %As the future solution of FTTx, ONU 1001i provides powerful voice, high-speed data, and video services through single fiber GEAPON.
