

New 800G Optical Module

Overview

Explore QSFPTEK 800G OSFP optics price lists and datasheets. The 800G optics provide ultra low latency, low power, and high reliability optical interconnect core components for data centers, AI computing clusters and ISP networks. The MTRO-F6F6C. New Castle, Delaware – FS, a trusted provider of ICT products and solutions, has launched its cutting-edge 800G Linear Pluggable Optics (LPO) module. Designed for AI/ML applications, this advanced 800G DR8 OSFP finned top LPO module enables high-speed data transmission with ultra-low power. Lumentum 800ZR+ transceivers serve a wide range of applications, from DCI to metro and regional networks, thanks to their ability to interface directly with routers. Additionally, the enhanced performance modes now make 400ZR+ and 600ZR+ operations suitable for true long-haul applications, with. Coherent 800G Transceiver Modules transform networks for future connectivity, serving as a vital component for AI/ML, InfiniBand, and Ethernet applications. The Coherent 800G Modules are powered by a 6nm DSP and consume approximately 17W for 800G optics. They play an important role in HDR (High Data.
