

Optical Module Shipment Ranking in 2021

Overview

In 2021, InnoLight will be tied for first place with II-VI (acquired optical module leader Finisar) (ranked second in 2020), Huawei (HiSilicon) will be ranked third (ranked third in 2020), and Hisense Broadband will be ranked 5th (4th in 2020), Eoptolink 7th (9th in 2020), and. In 2021, InnoLight will be tied for first place with II-VI (acquired optical module leader Finisar) (ranked second in 2020), Huawei (HiSilicon) will be ranked third (ranked third in 2020), and Hisense Broadband will be ranked 5th (4th in 2020), Eoptolink 7th (9th in 2020), and. The latest data shows that Xutron Technology and II-VI acquired Finisar, the leading optical module company, and tied for the first place in optical module market share in 2021, which is also the first time for a domestic vendor to reach the top of the list. As shown in Figure 1, the changes in the. In the 2021 annual optical module shipments TOP10 list released in 2022, the number of Chinese enterprises has increased to five, with the addition of HISILICON and Eoptolink, and the Japanese and Korean enterprises that used to be common in the previous TOP10 list have almost disappeared. Looking. Longi has retained the top position in the module shipment ranking for 2021, after it grabbed the top in 2020, according to InfoLink database. Calculation shows that the company shipped more than 10 GW of modules than Trina and JA Solar, which tied for second place. A majority of the Japanese and US-based suppliers exited this market by 2020, while Chinese vendors improved their rankings.
