

Palau Fiber Optic Cable Patch

Overview

An AIFFP loan and grant package is enabling increased internet connectivity in Palau, with Australia, Japan and the United States supporting construction of a fibre optic submarine cable system. The project cable laying in Palau, June 2022. The Belau Submarine Cable Corporation is a state-owned public corporation that owns and manages a submarine fiber optic cable network for the Republic of Palau. International Development Finance. The 18,000 residents who reside in Palau, spread across nine islands in the main archipelago, now have dependable “always-on” service thanks to the successful implementation of a dual-satellite connection solution by Intelsat, the operator of one of the largest integrated satellite and terrestrial. The Palau Cable 1 (PC1) is the first international submarine cable connecting Palau, ready for service in 2017. James Lynch, Deputy Director General of ADB's Pacific Regional Department, and Palau President Tommy Remengesau discuss how high-speed internet services will improve life in the.
