

# Paraguay Grid Bridge

## Overview

On 20 December, 2025, Paraguayan President Santiago Peña officially inaugurated this colossal structure linking the cities of Presidente Franco (Paraguay) and Foz do Iguacu (Brazil), marking the beginning of a new era in South American connectivity. The program to improve and modernize Paraguay's power grid and electric service management, together with the project to build access to the second international bridge over the Paraná River, are set to improve the quality of life of residents and boost the country's productivity and tourism. A new stay cable bridge was built to cross the Paraná River, which separates Brazil and Paraguay, as part of the East Perimeter (Perimetral Leste). The completion of the Ponte da Integração Brasil-Paraguai, the friendship bridge linking Brazil and Paraguay, is a long-awaited second connection between the two countries with a main span of 470 meters, making it the longest in Latin America. A project of this size required suitably large. The new transport corridor through Paraguay will provide an important link between Chile's Pacific Coast and Brazil's Atlantic Coast - image courtesy of © Aguina| Dreamstime. com Progress is being seen with the Bioceánica bridge project that will link Brazil and Paraguay. The long-awaited making it the longest in Latin America.
