

Petrochemical Plant Cable Trays

Overview

Explore special Cable Trays in Specific Industries like Petrochemical & Nuclear Power. With more than 30 years of experience, BASOR supplies all kinds of cable trays for electricity, instrumentation and communications installations for use in the oil and gas, chemical, petrochemical, refinery, industrial plants (paper, cement, fertilizer, etc). Because of this, the cable trays used here need special features. This keeps production safe, helps protect the environment, and makes equipment last longer. Dealing with Corrosion Petrochemical plants have lots of. They often have multiple processing areas, producing chemicals that range from ethylene for plastic production to ammonia for fertilizer. Backed. Cable management and electrical systems must include stable load performance across all temperatures, effective corrosion resistance, and unprecedented weight reduction.
