

Sudan GGD Distribution Box

Overview

GGD AC low-voltage power distribution cabinet is suitable for power distribution systems with AC 50Hz, rated working voltage 380V and rated working current up to 3150A of power users such as power plants, substations, factories and mines, etc., as power conversion . It is suitable for communities, shopping malls, schools, supermarkets, substations, industrial enterprises and other power users, with Ac 50Hz, rated voltage 400V, 690V, rated current 1000 ~ 3150A power distribution system, used for power conversion, distribution and control device of the power. Dongfeng-covering various types of distribution boxes_rich and diverse product system, covering various types of distribution boxes and cabinet products. GGD cabinet applies the universal cabinet. Jiangsu spirin power technology Co. Plant covers an area of 150 thousand square meters, the company was founded in 2015, the registered capital of \$118 million. Professional engaged in high low voltage electrical equipment research and.
