

Upgraded version of Japanese outdoor waterproof patch cord

Overview

JONHON-compatible hardened waterproof CPRI patch cord series for FTTA sites. Supports interface-to-interface jumpers and interface-to-LC duplex/fanout transition assemblies using OS2 G657A1 fiber, designed for outdoor reliability with target up to IP68 when properly mated. Optical suspension patch-cords, designed for outdoor installation between supports, buildings, on facades and to the point of entry into the facility. Made on the basis of drop cable, have a moisture- and frost-resistant sheath. The optimal solution for connecting subscribers in the private sector. MPO outdoor waterproof optical cable, also known as the base station MPO optical cable, is suitable for ordinary outdoor environments and is often used on the top of the tower and for waterproof connection of the equipment ports of the communication base station.
