

# Waterproof membrane for data center server racks

## Overview

The product consists of a lightweight polycarbonate shell placed over racks and cabinets to protect it from overhead leaks and debris, and comes with pull-down curtains that can be extended for additional protection for IT equipment. Turtle Shell® is a patented product providing critical systems protection from water and debris. Shells provide ample. Enter the NEMA 12-rated enclosures—a popular choice for safeguarding IT hardware in challenging environments. Sika's range includes Sarnafil® thermoplastic membranes and SikaShield® bituminous systems, along with options for cool, green, and solar-integrated roofs that extend service life while reducing operating costs. As a rule, they accommodate massive servers and supplementary accessories.
